Addition Word Problems

Read the addition problem. Solve the problem by writing the number sentence.

There are three horses in the pasture.

Two more horses join.

How many horses are there now?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

There are six pigs at the barn. Three cows come over. How many animals are there altogether?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

There are seven chickens at the petting zoo. There are also five rabbits. How many chickens and rabbits are there altogether?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$
